DETAILED ACTION

Claims 1-62 are pending in the instant application.

Election/Restrictions

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in response to this action, to elect a single invention to which the claims must be restricted.

Group I, claims 1-18 and 29-36, drawn to polynucleotides and cells transformed with them.

Group II, claims 19-28, drawn to an isolated and purified enzyme.

Group III, claims (37, 38), 39, (41-44), 45-48, (49), 50, (51-56), drawn to plants and plant parts with increased expression of cytochrome P-450 reductase and methods for preparing such plants.

Group IV, claims (37, 38), 40, (41-44), (49), and (51-56), drawn to plants and plant parts with decreased expression of cytochrome P-450 reductase and methods for preparing such plants.

Group V, claims (56) and 57-62, drawn to isolated alkaloids and methods to produce isolated alkaloids.

The inventions listed as Groups I-V do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special

Application/Control Number: 09/486,757 Page 3

Art Unit: 1635

technical features for the following reasons: The claims of these five groups are drawn to materially different products, which products are nucleic acids, enzymes, plants and plant parts, and isolated alkaloids, and the claims are drawn to materially different and distinct methods steps for making said materially different products. Furthermore, the uses of the nucleic acids of Group I have materially different effects so as not to form a single general inventive concept under PCT Rule 13.1. Further pursuant to 37 C.F.R. § 1.475 (d), the ISA/US considers that any feature which the subsequently recited products and methods share with the main invention does not constitute a special technical feature within the meaning of PCT Rule 13.2 and that each of such products and methods accordingly defines a separate invention.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(I).

Application/Control Number: 09/486,757

Art Unit: 1635

Conclusion

Certain papers related to this application may be submitted to Art Unit 1635 by facsimile transmission. The faxing of such papers must conform with the notices published in the Official Gazette, 1156 OG 61 (November 16, 1993) and 1157 OG 94 (December 28, 1993) (see 37 C.F.R. § 1.6(d)). The official fax telephone numbers for the Group are (703) 308-4242 and (703) 305-3014. NOTE: If Applicant does submit a paper by fax, the original signed copy should be retained by applicant or applicant's representative. NO DUPLICATE COPIES SHOULD BE

SUBMITTED so as to avoid the processing of duplicate papers in the Office.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jane Zara whose telephone number is (703) 306-5820. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, John LeGuyader, can be reached on (703) 308-0447. Any inquiry regarding this application should be directed to the patent analyst, Katrina Turner, whose telephone number is (703) 305-3413. Any inquiry of a general nature or relating to the status of this application should be directed to the Group receptionist whose telephone number is (703) 308-0196.
